

## Series 10 Sack Filler

The All-Fill Series 10 Sack Filler has been specifically designed to accommodate a wide range of sack and bag sizes. The high-resolution digital strain-gauge load cell provides the signal for filling to stop, eliminating inaccuracies caused by products of inconsistent density. An electro-pneumatic clamp with easy-location presentation guides allows the operator to quickly place the sack/bag beneath the nozzle ready for filling.

### Standard Features

- ▼ Fully integrated load cell
- ▼ Electro-pneumatic sack clamp
- ▼ All stainless-steel contact parts
- ▼ 56 litre stainless steel hopper
- ▼ No-tools removable change parts
- ▼ Auger machined from solid
- ▼ Servo-driven auger
- ▼ Independent agitation drive
- ▼ PLC control via touch-screen panel
- ▼ Bag/sack sizes from 100g to 25kg

### Options

- ▼ 2-speed bulk fill and top-up
- ▼ Bulk fill and feed forward
- ▼ 56 litre Lean-Clean split hopper
- ▼ Mobile base
- ▼ 316L contact parts
- ▼ Single and twin acting flap valves
- ▼ Hopper level probe
- ▼ Bulk feed accessories
- ▼ Active feedback software to minimise give-away
- ▼ Printer/interface port
- ▼ Roller conveyor
- ▼ 38 litre stainless steel hopper
- ▼ Dedicated clamp assembly for small fill weights
